Title : ANALYSIS OF INVESTMENT KNOWLEDGE AND BEHAVIOR OF GEN Z TOWARDS INTEREST IN INVESTING IN CAPITAL MARKETS

ABSTRACT

This research aims to analyze the influence of Gen Z's knowledge and behavior on interest in investing in the capital market.

As a result of previous research, different results were found, namely several actions in managing finances for Gen Z, one of which was saving through Capital Market shares, but another fact was also found that saving/managing finances is not only through Capital Market shares.

The type of data used in this research is primary data from respondents from students at the Faculty of Economics and Business, Mohammad Husni Thamrin University, Management Study Program semester 2-8 2020-2023 by filling in a questionnaire. Method for analyzing research data processed using the SPSS (static package for social science) approach

The results of hypothesis testing produced a calculated t value of 7.798 with a significance of 0.000. This indicates that the results of testing hypothesis 1 proposed in this research were accepted, which means that the better the role of investment knowledge, the greater the interest in investing in the Capital Market.

The results of hypothesis testing produced a calculated t value of 10.924 with a significance of 0.000. This indicates that the results of testing hypothesis 1 proposed in this research were accepted, which means that the better the role of Gen Z behavior, the greater the interest in investing in the capital market.
